### **Professional Goals**

With a recently completed Associate's degree in Computer Information Systems and ongoing studies in Information Science at the University of Arkansas at Little Rock, I am looking to transition away from the restaurant industry and into a career in information technology.

### **Education**

The University of Arkansas Little Rock

- Bachelor's degree in Information Science (Expected Graduation Fall 2025).

The University of Arkansas Pulaski Technical College

- Associate of Applied Science Computer Information Systems.

The Forge Institute

- Completed the IT/Cyber Fundamentals program.

### **Certification**

- Computer Information System Certificate of Proficiency from the University of Arkansas Pulaski Technical College.
- Certificate of Proficiency Cybersecurity from the University of Arkansas Pulaski Technical College.
- Cybersecurity Technical Certificate from the University of Arkansas Pulaski Technical College.
- Certified Information Technology & Cyber Professional from the Forge Institute.

### **Skills**

- SQL, ERD, and Oracle
- HTML, CSS, and some Javascript
- Java

**Work History**

El Chico 1999-2010 (busser, server, bartender, kitchen)

U.S. Pizza CO. 2010-Present (server, bartender)

- Working in resaurants has helped me to develop interpersonal skills like being able to communicate as well as listen and resolve any conflicts that can arrise in a stressful situation.
- I have been resposible handling cash and credit card transactions accurately and responsibly
- Working in this industry has taught me valuable lessons about collaborating within a team to ensure the restaurant's success and meeting my own financial goals.
